

Keypad User Manual

Introduction:

Thank you for purchasing an **igh** control device.

The **igh** system is designed to automate home control and provide easy remote operation of all your electrical appliances/lights connected to system. **igh** products include a variety of devices to control your home. The products can be installed in one room, expand to additional rooms or to the entire house according to your needs and budgets.

Green Point products are constructed with careful attention to detail, using only high quality materials, assuring peak performance over time.

Warning!!!

Controlling Appliances:

igh systems can control electrical appliances either remotely or automatically, allowing electrical appliances or light to be activated without the operator presence's in the room. Extreme caution must be taken to avoid hazard conditions.

Important

Read before installing

1. Install in accordance with all national and local electrical codes and local regulations of your country.
2. The products of the **igh** system range are designed to be used and installed in domestic and similar environments where there is no need for special protections against the ingress of water.
3. The installer must hand the user manual over to the user and should stress that the user become fully familiar with it.
4. In case of a breakdown or malfunction, please contact an authorized technician or the **igh** products support center.
5. Use only Class II power supply with LPS to charge the Keypad unit.
6. There are no serviceable parts in this unit.
7. Do not paint on the **igh** Keypad.
8. Operate between temperatures of -10 °C to 50 °C.
9. Clean the **igh** Keypad only with a soft dry cloth. Do not use any chemical cleaners.

General Product Description

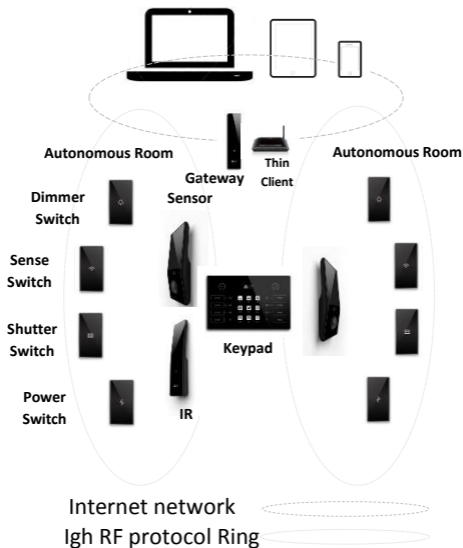

System overview

igh is a home automation and power management system, enabling unified and automated control over electrical appliances connected to the system.

The system is composed of 5 main components:

- **igh** Smart Switch
- **igh** Sensor
- **igh** Keypad
- **igh** IR Bridge
- **igh** Internet Gateway

System Connectivity

Keypad

Operating

Three main steps:

1. Turn the keypad ON by pressing the **Activation** button.
2. **Select** the desired appliances/lights.
3. Activate the desired **command**

Multiple Activation

If more than one appliances/lights are selected, the activation command will apply to all of them simultaneously.

Configuration

Building the appliances/light channels is done through the **igh** software wizard.

Backlight

The backlight will turn ON automatically when needed and turn OFF automatically when left unused to save battery life.

Buttons

Activation Button

Turns the Keypad On/Off.

Appliances/Light Area

Commands Area

On/Off

Turns the selected unit On/Off

Specific Level

Brings the selected unit to the desired level (25, 50, 75) percent.

25

50

75

Mode

Brings the selected unit to the desired mode.

man

Low Battery

Charging

Full Battery

When the Low Battery icon is illuminated, connect the Keypad to the charging cable.

When the Keypad is connected, the charging icon will be illuminated. The Full Battery icon will light up when it is fully charged.

Mounting

Select a location to install the **igh** Keypad.

When choosing an appropriate location, the following should be considered:

- RF range.
- Avoid placing the **igh** Keypad close to concrete walls or large metallic objects.
- Avoiding placing the **igh** Keypad near heat or cold- producing devices.

Use the installing mold included to mount the **igh** Keypad bracket. Select a location to install the **igh** Keypad, and with the installing mold in place, mark the drilling spots with a pencil. Drill holes in the marked areas. Use a hammer to tap the dowels into the holes. Place the base over the dowels, insert the screws and tighten them to build a base of the **igh** Keypad. The Keypad is now ready to be attached to the bracket.

Installing steps

1. Mount the **igh** Keypad and bracket to the wall.
2. Follow the software installation wizard to install and configure the Keypad.
